Yes, let's huddle for at least 1/2 hour next week.

George---please schedule a discussion for us.

As you know both ATSDR and OH Dept. of Health have been and remain deeply involved here (e,g, results and public meeting issues) in East Liverpool. I'm less sure about the extent to which OH EPA has been involved recently, or the extent of their interaction with OH Dept. of Health.

Subject: Fw: for tomorrow's conf call

FYI again - I just heard from Danelle Lobdell that the contract for the Ohio Mn health study is final and in place; same for the April 18, 2013 public meeting date. Danelle and I will be talking with Rosemarie B. soon about results, but we also need to begin coordinating our R5 and RTP public affairs staff for presentations, fact sheets etc. Danelle said her public affairs person is Dan Coberly. Phillippa Cannon was at prior Ohio public meetings for this project. Do we know whether Phillippa is the R5 person? thanks, George B.

Subject: Fw: for tomorrow's conf call

FYI - during yesterday's call mentioned below by Rosemarie Bowler, **April 18, 2013** was **projected** as most likely for an East Liverpool OH public meeting to present recent findings of the "Epidemiologic Health Study of Manganese Exposure in East Liverpool, Ohio". This remains a **projected date** pending finalization of the USEPA-SFSU sole source contract.

After the contract is in place Danelle Lobdell (ORD Project Officer) would like to discuss communication strategies with R5. I'm assuming this will involve our Public Affairs group and maybe others here in R5. Let me know if you want to discuss this. thanks

Subject: for tomorrow's conf call

Sent by: rosemarie.bowler@gmail.com

Hi all,

I look forward to talking together tomorrow and Vihra and I, with Michelle's and Cheryl's approval and input, have written up the cDEIs that we used for our submission to S Africa.

Thanks for looking at it. I think we will also discuss Michelle's last draft and changes at the call tomorrow. Cheryl may be able to call in toward the end but she is not sure.

Greetings,

Rosemarie
