Subject: Re: Thailand Request

Thanks. I'm still stuck in Israel with Food poisoning. Will be available tomorrow morning all day if you need anything.

Our team has been trying to get an idea of timing that will work for Alex to travel with U/S McKinney to Thailand but we have not heard back. There are unfortunately several Thai holidays in December in addition to our own, so we're limited on dates. Our best window is prior to 12/5, or the week of 12/16. Of course, prior to 12/5 is preferred (earlier the better) and we'll need to confirm/get planning. Let me know if you have any idea at all on what might work for EPA.

>>> I believe our team has been talking with Alex Dunne. Undersecretary McKinney is right now slated to attend for USDA and I am not familiar with Ms. Dunne so just wanted to make sure you and the Administrator's office were in the loop on the request since they'd be meeting with Thailand's Minister of Public Health and Minister of Agriculture. It's important for EPA to be there to drive the point that Glyphosate is safe, and U/S McKinney will discuss what the potential impact on trade will be if the MRL were to be set at 0. We can continue discussions with Ms. Dunne if that's your preference - again, just wanting to make sure you were all in the loop since it may gain press attention (it's a very hot topic there).
