Subject: RE: Gateway Project - Phase One Plants

Dale,

it's increasingly looking like we will be able to accommodate the larger landscaping plan initially provided, and we would implement the landscaping at the tail end of the Hyannis Inner Harbor project before (or more or less at the same time) we begin work in Chatham. this would accommodate the full spectrum of interests associated with substance and timing for landscaping the BMP / park area. i think that once installed, we would need the Town to ensure the plants are watered / maintained until such time as they 'take' and/or until we are able to open the diversion structure for flow to the BMP area (which may practically equate to the same thing).

this said, pls keep this to yourself for the moment while i confirm this along more formal administrative lines . .. i may be able to confirm as much today, in which case i'll get back to you later this afternoon or tomorrow.

Subject: Gateway Project - Phase One Plants

Hi Ray,

Attached is the requested copy of the "possible" plants for phase one.

Enjoy,
Dale
