Subject: BMP items

Dale,

just fyi, . ..

it's my understanding the Hyannis Inner Harbor N BMP is now set to discharge the design storm from the MS4 to the BMP.

you might want to keep an eye on it if you have the chance; perhaps take some photos during storm events.

it's unlikely we'll have a ~ 1" storm in ~ 1 hr as we did last summer, but these days, anything's possible. that subcatchment is very 'flashy'. so recommend keeping an eye on the overflow structure to make sure the metal grate is not blocked/covered with grass or whatnot.

re: signs/kiosks.

a. we have some draft designs for the kiosk which i will soon forward to you for your review and comment.

b. has anyone touched base with you about replacing your sign?
