FY18 STATUS
6/2018 - Site was referred back to EPA to investigate under CERCLA. Sampling expected for Site inspection mid-late June
6/2018 - After workshare meeting - Need to set up meeting in near future with Phila Gun Club to discuss how EPA can help PADEP with cleanup.
6/2018 - PADEP sent me documents after the workshare meeting to show the site is in Act 2. Review and make a decision. Should be able to NFRAP
6/2018 - PADEP said EPA can look at doing an assessment here. Not in PADEP's Cleanup program
5/2018 - Documentation received from last meeting on Doehler-Jarvis/Farley Industries and HSCA has no further actions. Act 2 final report was for Benzene, Naphthalene, Chrysene, Phenathrene, and Pyrene. Review and make a decision
6/2018 - EPA Removal collected indoor air sampling and report is in draft form. PCE/TCE was not detected indoor air samples. The property owner is willing to work with PADEP in order to close the gaps on this site.
6/2018 - NIR submitted to PADEP in 2015. This site is actively through an Act 2 cleanup.
6/2018 - Received PADEP's Act 2 completion documents. Review and close this site out
6/2018 - In June 2001 the PRP postponed the cleanup due to financial issues but went bankrupt in 2002. No indication of going through Act 2. PADEP has no plans for the site at this time. EPA should review file and make a decision.
6/2018 - Seems to be associated with Lukens Steel Co. Need to review and merge the sites together
6/2018 - Removal stepped in to address PCBs at the site. One outstanding issue may be there is no Env. Cov. For the deed. Review the final POLREP and make a decision on the site.
6/2018 - Received PADEP's Act 2 completion documents. Review and close this site out.

6/2018 - PADEP sent me documents after the workshare meeting to show the site is in Act 2. Review the information.
6/2018 - Received PADEP's Act 2 completion documents. Review and close this site out
6/2018 - PA completed 12/2017, SI completed 5/2018. Collected residential soil samples as part of an ESI in June 2018. Review this data and make a final decision on the site.
6/2018 - This site should be part of an NPL site. Need to speak with the RPM for additional details. Two private drinking water wells located near this NPL Site showed elevated manganese and Lead concentration recently.
6/2018 - HSCA has no further plans of the site. EPA will preform a site Reassessment.
6/2018 - Recently identified the source. Delmar properties bought the property in November 2017 and PADEP is getting ready to issue an order since they plan to redevelop the site residential
6/2018 - Delaware River Keeper appealed PADEP's Cleanup proposal. Setting up a site specific meeting on this site in near future.
6/2018 - located at 3900 Richmond Street. Seems to be next to Franklin Slag NPL site but not associated it. Review file & talk with RPM for further information. PADEP just completed a GW investigation.
6/2018 - Received PADEP's Act 2 completion documents. Review and make a decision on the site
