Subject: Data Management Tools and Coordination
Attachments: Data Management Tools and Coordination Meeting Notes 11-18-19.docx; Data Management Meeting Presentation.pptx

Good Morning Data Team,

As follow up to the November 18th Data Management Tools and Coordination Meeting I have attached the meeting notes and presentation. In addition, once we finalize the Data Management Summary, I will provide this to the group. The purpose of this document is to summarize the intended use of FieldDoc into an easy to explain outreach document.

Thank-you all for your continued support in working toward a coordinated approach for collecting, tracking and reporting data. It is important to continue working together to coordinate all efforts and integrate systems where appropriate. Our next steps will be to convene technical review groups for both FieldDoc and the Chesapeake Conservancy's Agriculture Conservation Planning Framework. More information and invitations to participate in these technical review groups will be coming in the next few weeks, please be on the lookout.

If you have any questions, please feel free to contact me.

Thank you,
Jordan
