Any reconvening of the BMP verification subcommittee will need to be approved by the Management Board.

c. **PA in the Balance Report-Out:**

   i. On the model issue, need to make clear that it is a partnership model, not an EPA model. The partnership agreed to use this model for measuring success.

   ii. EPA needs to communicate that we hear the concerns regarding the model and that we are working with the partnership to continually improve the model, but we also need to acknowledge the on-the-ground progress.

   iii. Kelly will be meeting with NRCS to find creative solutions to address the model.

   iv. Farmers at the conference welcomed the opportunity to be part of the WIP process. Involving farmers is a huge step forward in the planning process for PA.

   v. Funding is a real issue—need to have a dedicated cost-share program.
