a. 8/8 Regulatory Advisory Panel meeting James River chlorophyll-a criteria
   i. In Sept. 2018, VA will go to board and ask for public comment. EPA will be commenting prior to official comment period. Best case is that comment period will be sometime next year. VA is:
      1. Revising current James River criteria that was on the books since 2005/6 based in the JR study.
      2. Proposing a 6 year assessment period and
      3. Proposing an additional asset of short-term chlorophyll criteria that appear to be a "backstop" to Items 1 and 2, should they not be approved.

b. Debrief on call with PADEP on PA WIP process/PA Expectations: PADEP will be sending EPA a letter asking for clarification on its expectations, specifically a definition of programmatic capacity, and expectations on wastewater treatment work, trading/interstate trading, winter spreading and ag certainty. A briefing with RA will be scheduled to review PA's WIP process.
