Bob –

Here is the hourly 2017-2019 hourly data for Welsh.

Subject: Request for 2020 SO2 data to date for two Texas nonattainment areas

Hi Mike,
We are writing a clean data determination (CDD) for nonattainment areas associated with two Luminant plants that have now shut down. The 2020 data from the DRR monitors at Big Brown (Anderson/ Freestone County nonattainment area) and Welsh (Titus County, nearby to the Titus County nonattainment area associated with Monticello) would be helpful in showing continued attainment of the standard after the 2017-2019 DRR monitoring period.

Could you pull the monitoring data for these two sites?
48-161-1084 (Big Brown)
48-449-1078 (Welsh)

It would be helpful to have the hourly data – ultimately I'll report the preliminary 99th percentiles and possibly the percent data recovery in the first two quarters in the CDD.

Thank you,
Bob
