Hello Jim:

The 2009 data was not carried through to 2014. New data, and additional models are included across the model years. I have attached the calculation pages from 2009 through 2014 that include Jetta 2.0L TDI GEN1 automatic transmission.

Regards,

Len

Hi Jim –
It appears that the highway was confirmed at 58.3 (from memory) on the Jetta sportwagen (heavier). This resulted in 40 mpg highway label (5 cycle derived).
Thank you -
Rob

Thanks Len, so does this 2009 data c/o thru 2014MY? I 'm trying to figure out why I'm seeing 60mpg highway for 2014.

Hello Jim:

Per your question to Rob, I have attached a spreadsheet that reflects the fuel economy label calculation for a 2.0L TDI GEN1 Jetta and Jetta SportWagen.

Best regards,

Len
