In addition to my appreciation for all your work on the Fourth National Climate Assessment, I thought you would like to see that others also appreciate your efforts:

If you actually read the climate report (or portions of it — it's more than 1600 pages long), it's an incredibly inspiring document. Tremendous work by g'ment scientists (NOAA, USGS, etc) in face of great political pressure. Authors of this are heroes. nca2018.globalchange.gov
