Allison – I'll just add you to the share list for the folder and you can look at all of them.

Are these up on the resources site or anything? I'd like to see Air Quality, the ridiculously titled complex systems one, and maybe take a peek at a few examples of the regions- but I'm happy to go download them myself if they're on the portal.
Thanks,
-Allison

Subject: NCA4 Chapter outlines for review

All:

The chapter outlines for the fourth National Climate Assessment (NCA4) have been provided to each of the USGCRP agencies for review and comment. Each of the 26 outlines is 3-4 pages, although a few author teams have been overachievers in this regard. Please let me know if you are interested in reviewing and providing comments to me on any or all of the outlines. If you are interested, I will provide access to the outlines in a OneDrive folder.

Review comments are due to me by **COB February 1**. I will consolidate comments and enter into the USGCRP comment system.

Please do not forward this email to anyone who is not an EPA employee.
