Great talking to you as always…very excited for you with the baby news!
I'll review this data from the MCHD.
Also find attached the Q3 09 historical data table (I called it DRAFT since it needs final review yet), see last page for MW-170S results.
Hope this helps!
Leena

Subject: West Vermont Street Groundwater Results

Erin and Don,

Attached should be the most recent groundwater sample results for the two properties on West Vermont.

The following shows the sample date for each property which should correspond to the attachment:

4018 W Vermont	4042 W Vermont
8/20/09	8/27/09
8/27/09	9/3/09
9/3/09	9/10/09
9/10/09	9/17/09
9/17/09	

The 4018 W Vermont Street well consistently has results above the MCL for Vinyl chloride.
