Hello John,
I have gathered some information that you requested to become familiar with our Regions CAFO inspections. Attached is the prioritized inspection list (Excel spreadsheet). There are 12 facilities on the list. The first seven received the 2011 EPA AO's. I've added five more facilities (and attached their previous inspection reports) that we could visit if time permits. Also attached is our current General Dairy Permit, an inspection check list, and an inspection form. Let know if you think you need additional information or have questions. Thanks

I may need to send you additional emails with some of the attachments
Ed

Hello John,

Sounds good! See you on the 28th. I'll be sending you reference material (RB8 Permit, Inspection form, Dairy inspection list, other RB8 CAFO guidelines). Once it gets closer to your visit we can set up a meeting place and time.

Take care,
Ed

Hi Ed,

Ok, Thanks ! Sept 28-30th works for me as well, we can plan on that,

Best,
John

John,
My bad again. I beginning to confuse myself. My next only available time is Sept 28-30.

Hello John,
I see you've made travel arrangements already for the inspections. Sorry for this notice, but as it turns out, I failed to realize I'm already scheduled to conduct inspections with Tetra Tech the week of Sept 14 in another part of our Region. I sent Glenn an email yesterday afternoon asking if the week of Sept 21 would be ok. Talk to you soon. Thanks

Hi Ed,

Thank you again for your time/willingness to help with these inspections.

I've made travel arrangements to be available first thing the morning of Monday Sept 14 (I'll fly in the night before), and we can do inspections the 14th, 15th, and the 16th, - I may have the morning of the 17th available as well depending on how much progress we are making.

Apologies, I am a newbie to CAFOs (though I've done a number of aquaculture facilities, stormwater sites, etc) so I will be familiarizing myself with the RB8 permit, the AOs, and the conditions of CAFO inspections over the next few weeks.

Do you have a standardized checklist/form that you typically use?

Thanks!

Subject: FY 2015 Inspections in Chino Area

Hi Ed,

Hope all is well.

As you are aware, I am scheduled to retire at the end of October of this year. Although I originally planned to conduct the remaining 5 CAFO inspections myself, I have been hobbled by my Diabetic Neuropathy symptoms. As a result, I am unable to conduct the field work myself due to my Doctor's field work restrictions.

In my place, I am pleased to announce that my esteemed colleague, John Tinger, will be replacing me in this year's inspections. As in the past I trust that your expertise and energized level will help to propel another successful inspection outing.

Could you please inform me of your availability to accompany John in a Joint field inspection of CAFO facilities in the Chino/Ontario area before the end of our fiscal year ending September 30. We only have 5 inspections to conduct this time around. Might there be a cluster of 5 CAFOs that you and John could visit? Perhaps we can visit the Ontario area we have not yet covered.

Also, we would like to check on the status of Legend Dairy which you recently caught in violation of your requirements.

Thanks.

Glenn
