EXPORT WASTE MINIZATION CLAUSE

EXPORT WASTE MINIMIZATION CLAUSE FOR 2015

Clean Earth of North Jersey, Inc. (CENJ) has in place a waste minimization procedure which includes the following items.

1. GENERATOR EDUCATION

Through conversations with our Generators by our Technical Representatives and Environmental Specialists, CENJ informs Generators of changing regulations as well as four major reduction methods. The waste reduction methods are:

- Waste Abatement
- Good Housekeeping
- Waste Reuse
- Waste Recycling

2. FUEL BLENDING

CENJ has long been involved with the practice of fuel blending. The fuel blending program entails the bulking of various solvents and other chemicals that are blended to meet the specifications for alternative fuels for cement kilns. The practice of fuel blending beneficially re-uses the waste materials, as well as reduces the amount of virgin fuel products consumed by the cement kilns.

3. STABILIZATION

CENJ also reduces the toxicity of various waste streams through the use of cement kiln dust. Cement kiln dust produces cement-like aggregate that encapsulates the various toxins. The final product is a media with soil-like consistency. In addition, CENJ also beneficially utilizes fly ash and other combustion by-products that otherwise would have been managed at a Sub-Title D Landfill.

4. INCINERATION

CENJ also uses a 3rd party commercial incineration for some of the waste materials. Incineration is reserved for limited types of material that cannot be managed in any other manner.

In conclusion, Clean Earth of North Jersey uses all of the aforementioned technologies to properly handle the waste material. There has been no significant decrease in volume of toxicity of CENJ's waste exports relative to the previous years. The facility's waste minimization program remains effective, however, as a commercial RCRA Part B Treatment Storage and/or Disposal Facility (TSDF), CENJ's waste generation is subject to market fluctuations.

I certify under penalty of law that I have personally examined and am familiar with the Information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate and complete.
