Notes

DTP - depth to product (feet below top of casing)

DTW - depth to water (feet below top of casing)

[1]Estimated gallons removed based on 4-inch casing and difference in product level in well before and after removal. Does not account for volume of hose in other equipment in the column of product.

[2]Well was partially bailed and later pumped with an installed pneumatic pump. Precise measurements were not recorded while pump system was setup and tested. Volume pumped is estimated.

[3]Gallons removed from well measurements as a percent of gallons pumped from tank measurements

Pumping began on 20 February 2015

Notes

DTP - Depth to product

DTW - Depth to water

N/A = not available

[1]Estimated gallons removed based on 4-inch casing and difference in product level in well before and after removal. Does not account for volume of hose in other equipment in the column of product.
