FYI – Need UXO Pro input ASAP – I have no significant issues with message. Does UXO Pro have any must-be-instituted changes to this letter/EPA message? This is Carolyn's EPA letter which I believe you already have the informal, working versions.

Thanks.

Your probably digging out from a week of email after being out in the field. I've drafted a response to the RTCs on the FVMs; incorporated Evas comments this morning. Do you want to add any comments to this before I send it or do you prefer to discuss them on the call this afternoon? I want to send this out ASAP in advance of todays call
