Subject: Williams ST12: Agency comments on Field Variance Memo #5 for Hydraulic Containment

Cathy

I am forwarding you our comments on the field variance memo #5 for hydraulic containment at ST12. These comments were compiled as a collaborative effort amongst the technical review team and the attached letter also incorporates ADEQ's comments. As ST12 is currently in informal dispute I am also forwarding this letter to our management team to inform their discussions.

I am still compiling comments on the field variance memo #4 for additional characterization; you should receive that letter no later than Monday.

Have a good weekend!
