Thank you. This email chain indicates that primary parties, EPA, USAF and ADEQ conditionally concur with Site ST012 remedy continuance. Unless superseded by a prior written agreement or record, Nov. 1, 2018 is the date ADEQ will use for administrative purposes.

EPA concurs, provided that agreement upon the location of wells requested in our July 3, 2018 letter meets with EPAs satisfaction, and are installed and operational by April 1, 2019. Looking forward to well placement discussions tomorrow.

The Air Force concurs and approves implementing ST012 sulfate solution enhancement as soon as possible.

Can you please provide confirmation that EPA and USAF concur to move ST012 sulfate solution enhancement forward? Does an email or written memo exist? ADEQ leadership requests project progress milestone documenting.

Thanks.
