Subject: additional wells at ST12

Carolyn and Wayne-

I submitted the well package to contracting on 6/20. Williams contract issues held up the SS17 mod (it has now been awarded) and the ST12 well modification mod. The well modification mod has not been sent to Wood yet.

I need to revise some of the well package paperwork and send it back to contracting which should not take long. Goal would be August/Sept. award.

We still owe you responses to your comments and an updated figure.

I will keep you posted.

Cathy

Plan is to mod Wood's contract and it does not need to be competed. Thanks.

Do you have to compete it?

The contracting package has been revised and is back to me for review.

I hope to get it in to contracting this week. Once I get the package to contracting, I can get an estimated award date. Thanks.

Thanks Cathy

Any update on schedule for monitoring well installation?

Subject: Update on CZ23 results

Carolyn and Wayne-

The sampling results for benzene concentrations at CZ 23 for March, April, and May (two samples) 2019 were 47, 31, 38, 51 ug/L, respectively. A groundwater sample will be collected at CZ 23 the week of 17 June 2019.

As discussed in the May 2019 BCT meeting, the AF is proceeding with construction of additional piping/trenching, wellhead modification, and installation of a pump to begin groundwater extraction at CZ 23. The construction is scheduled to start next week (17 June 2019) and will take ~3 weeks. Extraction will continue at CZ 07 concurrently with CZ23 extraction.

Please let me know if you have any questions.

Cathy
