Subject: Follow-up TAG meeting
Location: Call-In info within invite

Start: 8/3/2020 6:00:00 PM
End: 8/3/2020 7:00:00 PM
Show Time As: Tentative

Recurrence: (none)

Hello everyone,

We are holding this additional TAG meeting to further discuss reference area considerations for the fish sampling. Specifically, how different populations of fish from the general forebay area (Forebay proper, Bradford Island, Goose Island) will be differentiated between a Site and Background population. During the previous TAG call, it was suggested that this could be concentration based, however, the Corps would like a better understanding of how this would be done without introducing bias.
