Hey Erica – what about the agriculture and septic projects?

Hi Shera,

I would be happy to update the workplan. The dates in the plan all say "present - 2025." I am still fine with that timeframe even after the months that have passed. Are there dates elsewhere that are nearer term? I am not seeing them.

Based on a discussion with my colleagues, it sounds like we are close to finalizing the settlement agreement, so I've been asked to reach out to request that the workplan deliverable due dates be updated since the application was submitted in March and several months have passed.
