Is the plan to also provide outreach/notifications for the "pause" press release scheduled for tomorrow? Just let me know and I will get started prepping a plan

Here is a draft plan. I've gotten mixed messages on timing (this afternoon vs. tomorrow) so curious if anyone has heard more.

Great! No specific questions, but any more specifics they are willing to share would be helpful in trying to figure out who best to get on the call from the EPA side. For example, is there a specific program (DERA) they are interested in, etc.

hey Radha, were you able to gather any more intel on the electric school buses request? before i get the OAR machine moving it'd be helpful to know who is requesting and a little more about what they are interested in. thanks!
