**Subject**: 2/12/20 R6 EtO update

Sterilizer NESHAP
Comments were due on the Sterilizer NESHAP Advance Notice for Proposed Rulemaking (ANPRM) on Monday 2/10. I'm looking out for comments in the docket from R6 states, but haven't seen any yet. Sometimes the system takes time to catch up on comments.

MON
Comments are due no later than Tues 2/18 on the proposed MON Risk & Technology Review. I'll check the docket next week for R6 state comments.

TCEQ EtO ESL
TCEQ is still planning to submit a revised Decision Support Document on a revised draft state ESL for EtO with the TCEQ comments on the MON by 2/19.
They have also developed responses to comments on their initial draft decision document. TCEQ is in the process of conducing conducting a peer review through the Univ. of Cincinnati. This TCEQ expects a peer review report, possibly as early as April, more likely May.
Once TCEQ gets the peer review comments and depending on their extent, it should not take them long to finalize the new state EtO ESL.
