Subject: FY 2014 DWTSA Funds - Proposed Funding for the HAMP

IHS will be requesting $985,000 for FY 2014 DWTSA funding for the Hopi Arsenic Mitigation Project. The funding will be to complete one of the segments of the HAMP (for the villages of Mishongnovi and Sipaulovi). This segment includes the installation of a 110,000 gallon storage tank, construction of about 2 miles of transmission main (i.e., to the new

tank), install a disinfection facility, and activities/equipment associated with the construction activities (e.g., hydrogeological survey, start up activities). Since the proposed funding is for construction activities, I have suggested to IHS that IHS request that this pot of money be under a new IA.

IHS will be sending a formal proposal, with schedule and detailed budget, for the FY 2014 DWTSA funding early this week (week of June 9, 2014).
