Ed, just an FYI we've been getting updates from ISDA about a pesticide exposure incident in Caldwell where 25-30 people were exposed to pesticides while working in a hop yard next to an onion field that was being treated by airplane. ISDA is still investigating. (https://www.ktvb.com/mobile/article/news/local/12-farm-workers-sickened-after-being-exposed-to-mystery-substance-near-wilder/277-75b62acc-ee8d-48cd-913f-9aec782a63df)
