Subject: Proposed Engenia herbicide labeling
Attachments: 007969-00UTE.20200929.NVA 2020-04-385-0133.pdf

Hello Dan,

BASF is submitting the revised proposed labeling for Engenia herbicide (7969-UTE). Revisions incorporate the recently discussed label mitigation measures and the removal of all non-DT crop uses from the label Use Directions.

Please note that page 7 contains the summary of use requirements that should enable users to more easily comply with the use requirements.

Please let me know if you require additional changes.

Thank you,

Jeff
