Yes, and looks good to me.

Thanks!
Barb

So, to summarize, if your previous entry didn't get captured we can go with the following:

"The Final Environmental Impact Statement (FEIS) for Pebble mine was released by the Corps of Engineers on July 24. As members of the *Pebble Project Permitting Oversight/NEPA Review Team*, Barbara Butler (LRTD) and Michael Kravitz (TSCD) will provide review comments to Region 10 (the lead EPA Region) on 1) how the document addresses their *Preliminary FEIS* comments submitted to the Corps in March, and 2) review of any new information related to these comments or to their primary review areas. Also will include recommendations on how the Corps can address the issue(s) in its Record of Decision and/or permit."

Mike

Sounds good, Michael. Thanks for capturing both our divisions.

Barb,

I'm fine with your approach. We probably don't need the specificity of individual areas that we're reviewing.
Thanks,

Mike

Hi Michael,

I thought that the one that I had sent in last week captured our work on this, albeit a bit more generically than your write up below . I didn't see it in either the CESER or the Weekly emails, but not everything submitted gets included. What you have typed is what both of us are doing, so if the other one didn't get captured, I am fine with this one going in with both of our names since we're both in CESER, and with some modification. The areas I'm reviewing are spills, water and sediment quality, and mitigation, if that much specificity is needed. Suggest also making clear that the review comments are for Region 10 and not directly to the Army Corps.

Thanks,
Barb

Ps. Including Todd Luxton as acting BC for Dennis this week. Todd, including the email that Dennis sent to Brij last week.

Hi Barb,

I plan to submit the following writeup for my weekly:

"The Final Environmental Impact Statement (FEIS) for Pebble mine was released by the Corps of Engineers on July 24. As a member of the *Pebble Project Permitting Oversight/NEPA Review Team*, I will provide review comments on 1) how the document addresses my Preliminary FEIS comments submitted to the Corps in March, and 2) review of any new information related to these comments or to my primary review areas (transportation corridor, fish habitat, populations). Also will include recommendations on how the Corps can address the issue(s) in its Record of Decision and/or permit."

(I also included the paragraph that you submitted for the last weekly.)

Feel free to revise this if you'd like – it can be submitted to cover both of our Divisions.

Thanks,

Mike
