Subject: RE: Request for Presentation to the City Council

Mr. Lopez,
Steve Armann and I discussed your request and agree that it would be best if someone from the State provided the presentation to the City Council. Accordingly, I am in the process of identifying who that person would be, and will get back to you in the next few days.

Thank you for the opportunity,

Subject: Request for Presentation to the City Council

Mr. Armann,

Thank you again for the work you and your staff have conducted at the Riverside Agricultural Park site, and for attending the City Council meeting on March 15, 2016. As a follow up to the update provided that day, our City Council directed staff to prepare a report/presentation on the topic of "non-detect" to better understand its meaning from a scientific perspective in order to inform any further policy direction to staff. In a previous email, Assistant City Manager Al Zelinka, requested your consideration to have Patrick Wilson give a presentation on this topic to the City Council's Land Use Committee in mid May 2016. Given the importance of this issue to the City Council, I am requesting your consideration to have Mr. Wilson give a presentation to the entire City Council rather than to the Land Use Committee.

Thank you for your time and consideration to this request. Please feel free to contact me should you have any questions or if I can be of any assistance in the interim.

Thanks,

Moises
