Thanks Kate..... I am proceeding with the bedroom modification and will keep you posted.
Aloha,

I understand that you may not be able to replace the cesspool in May as you had anticipated. When you have a better idea of the revised timeline, please provide me a new date of when you expect to have the septic system installed and approved by DOH.

>> Hi Kate,
>>

>> I met with Shawn this morning and was told that my home exceed the 5 bedroom limit to upgrade from cesspool to septic. They consider my garage workshop which was built in 1959 an additional bedroom so I have to remove the windows in one of the 5 bedrooms and reclassify it as something else to get DOH approval. In order to do this I must apply for a building permit and do the work before they approve my septic installation. I have submitted all the necessary paperwork and have a contractor to start in May. This is the only time I can do the installation with no tenant conflicts.
>>
>> Is it possible for you to call Shawn? When I brought up your name and that you were involved in having us upgrade to septic, he asked that you call him and discuss getting an OK from EPA so we get started next month as scheduled. I hope you can help me with this.
>>
>> If I cannot install the new septic in May I will have to continue to use my cesspool.
