Hi Kate,
Thank you for your response. The cesspool is located at 46-093 Lilipuna Road, Kaneohe, Hi. 96744. The DOH inspector was Carl Ibaan. I was told by Carl that the matter was passed on to the EPA. My concern presently is the how long will it take before the cesspool seepage problem to be resolved. Can you give me that information?
Aloha,

Comments: I contacted the Hawaii Department of Health 12/11/17 to request an inspection of waste from my neighbor's cesspool leaching and percolating on my property about 15 feet from the property line. The inspector from the Hi DOH advised me today that my neighbor will have to replace his cesspool with a septic system because his cesspool was used for 2 residences and that the problem was being handled by the EPA. My concern is the waste that is showing up on my property and when this will be contained. Please contact me ASAP regarding the timeframe involved to resolve this matter.
