Sheila;

Our submission for your review. You can either forward it to the list provided below, or I can do it…just let me know!

KBye!

I wrote one for Bonamici two days ago, geez. I know you share the same feeling. Here is a condensed version.

In January 2017, EPA's final Record of Decision for the 10-mile stretch of the Willamette River known as Portland Harbor called for a combination of active cleanup actions (18%) including dredging, capping, enhanced natural recovery and monitored natural recovery (82%). The cleanup has an estimated cost of $1 billion and will take approximately 13 years. EPA has entered into several agreements, including for the performance of site-wide baseline sampling, and for partial or complete remedial design at three hotspots around the site. To date, EPA has met with and communicated to all Portland Harbor PRPs that the Agency plans to initiate consent decree negotiations at the end of 2019. EPA entered into an agreement with the City of Portland and State of Oregon to provide incentives encouraging parties to sign up for 100% remedial design work for 100% of the ROD area.

Thanks,

****

Davis, Robert, and Ashley;

We need to provide this to HQ by COB 8/23, but if possible, I would like to get this done today or tomorrow. All you need is a short blurb as on our draft response above. Just send me an email with the blurb and I will cut and paste in . Don't worry about Centralia Landfill, I will do that one. Once we are done, I will share it with Sheila for a final blessing.

Thanks!

Subject: URGENT Request - for Upcoming Hearing - Due Friday 8/23

All,

On behalf of Peter Wright, I'm sending a request for additional information in preparation for Administrator Wheeler's hearing on Sept 19th before the House Science, Space, and Technology Committee. This is a general oversight hearing.

Peter would like the Administrator to have, in *addition* to the site-specific and issue-specific factsheets that you've provided to OCIR, an updated status on each of the active (e.g., current on the NPL, SAA, or recently proposed) sites in each of the committee member districts. You may recall that we made a similar request earlier this year for "blurbs" on each site in preparation for Barry Breen's hearing before the House T&I committee (a hearing that was cancelled).

Attached you will find a spreadsheet that identifies the sites that SEMS shows are within each member district. They are broken down by region. Some members do not have any sites meeting the criteria of "current" (i.e., they are deleted) and Region 1 has no members on the committee.

BY 3PM on FRIDAY, AUGUST 23rd - Please provide a document containing the status of each of these sites, using the attached Word document as a template.

Please send these factsheets directly to Melanie Keller, OLEM's Congressional Liaison. Please CC Greg Gervais, Mary Cooke, Jim Woolford, and me.

Thank you - Dana
