Hi Elissa,

Per our discussion this afternoon, below is a list of the pending atrazine items and their current status, so that you can confirm with Rick what we should be doing in terms of docketing:

1. **8/9/19 Letter from Alex Dunn to Jon Doggett, National Corn Growers** (attached), re the CELOC. This letter is already on the EPA website at: https://www.epa.gov/ingredients-used-pesticide-products/letter-august-9-2019-alexandra-dunn-jon-doggett-national-corn
   We have not yet added it to the atrazine docket, but will plan to add it on Monday

2. **10/16/19 Letter from Alex Dunn to the Triazine Network and the MO Corn Growers** (attached) re birds, fish, and amphibians.
   We have not yet added it to the atrazine docket, but will plan to add it on Monday

3. **Notes from 9/26/19 meeting between Triazine Network and Alex Dunn** (PRD was not in attendance, but EFED drafted notes; the draft notes are attached; EFED said Rick is seeking clearance from the OCSPP-IO for these)
   We will docket these notes once they have been cleared.

4. **Notes from 2/12/18 meeting between Triazine Network and OPP re the eco assessment**
   We will docket these notes along with notes of the 9/26/19 meeting. (The draft notes from that meeting are attached)

5. **Regulatory Update Memo** re CELOC (draft) – I believe that we are still waiting from approval from the OCSPP-IO to finalize this memo. It is drafted as a memo to the file, from Rick. (Attached)
   We will docket this once is has been finalized.
