Hi Sabina,
This is a complicated one and I am sure a challenge to write about.
It was very technical and honestly - even with 30 plus years of EPA experience - I didn't understand parts of the description of the actions. I tried to put them into plainer language a bit more active language and also put the items where we are doing something first (institutional controls after). I know some folks may have a fit ☹, but this one was not going to get past Pete with all of the super-technical jargon. I know we are in a hurry, but I really did feel this needed some massaging.

Hi Mary,
Please see attached fact sheet for the Riverside PRAP. We hope to get this to Pete ASAP so it can be translated. Once you review it will need to go back to the program for their review and Shereen will clean up the formatting.

Thanks,
Sabina
