Subject: update on FS

Hi All,

Just to keep you all in the loop. We had our weekly call with PPG and they had significant concerns on the FS. I think I mentioned this before but their primary concern is about the connection of on-site contamination to PRPs made in the FS. Woodard and Curran wants to take their name off of the FS. I am not sure what the fall out from that will be. We had an internal discussion and will be proposing to PPG that they provide text edits/comments back on Tuesday (rather than a final FS) and we are strongly recommending that they focus those on their biggest concerns. I am hoping that those be primarily text changes.

So stay tuned. We have time to work on the FS considering the proposed plan still has several levels of review to go but please be prepared for another revision of the FS but this should be take as much effort as the last revision.

Thank you for all your help on this,

Josh
