Subject: quick timing update

Hi Omar and Douglas,
Quick update. I'm still working on some non-DB issues and presentations for this week. Sorry for the delay, but I won't be able to get to the ESA responses until later in the week. I also need to review Mai's CEA work on wildlife and the ESA (the CEA includes information on the ESA process and species so we need to ensure consistency in that section and on the responses) – so it will take more of an effort than just reviewing your ESA responses. I'll still shoot for this week, but it won't be until late Wed/Thursday at the earliest.

Thanks, Kimi
