Subject: Quotes for Class III and Class V

Douglas and Ben,

Please see attached. Note that it includes quotations for the cost of P&A of 110 injection wells for the first wellfield under the Class III which is consistent with the expected quantity of injection wells described under the approved financial assurance for NRC. Also, quotations for P&A of the first Class V well are included. Please let us know if you have any further questions.

Sincerely,

John
