I just talked with Bill Bates. No staff lead has been assigned for this contract, but he will look into whether OGWDW can fund all or part of this need. I told him we would need to know asap and he plans to get back to us in the near future.

Hi Jill: on the assumption that you took over for Molly B as the lead for managing this Cadmus contract, we are providing you with an updated PWS and IGCE should OGWDW have more funding available to cover some additional tasks in support of our Dewey Burdock uranium ISR permitting effort.

If so, let us know what questions you have about our funding request or the attached documentation. We are prepared to work with Cadmus asap on this.

If funding is not available in the near future, please let us know so we can pursue other possible funding sources.

Thanks,

Douglas

From Valois:

Douglas and Bruce,
Attached for your review is the updated Performance Work Statement that includes the new Task 4 for organizing 2019 public comments and updating the response to comments framework document. The new language is shown as Tracked Changes to make it easier to find in the document. The list of documents I would send Cadmus to begin work on Task 4 is on page 11. I can send most of the documents to Cadmus right away.

I have also attached the Independent Government Cost Estimate based on the hours needed for the 2017 work with a few extra hours added to update the response to comment document. I estimate 500 hours will be needed, resulting in the need to add $49,555.09 to the existing WA. However, if Cadmus responds back with more hours allotted to the P4 level, the cost will increase. I hope that most of the work can be done at the P1 level, like last time.

Please let me know if you identify any edits that need to be made to this PWS.

Thanks!

Valois

Douglas,
I spoke with Nancy this morning. The money (provided by the OGWDW IO) has been moved into WA 3-96 (from WA 3-32). We moved $76K for now and will move a remaining amount when we receive the Work plan and budget back from Cadmus with a set/final amount. A PR from Region 8 is not necessary.

No additional actions of Region 8 are needed at this time. We will wait for CPOD to approve the WA and send it to the Contractor.

Thank you for your patience and understanding – given Nancy's workload and responsibilities at the end of one/beginning of another Fiscal Year, and the challenges associated with the volume of WA's she and CPOD are managing on this Contract.

Regards,
Molly

Hi Molly: Could you remind us how we proceed with securing OGWDW funds to process this paperwork on Cadmus contract support for Dewey Burdock?

I have highlighted the amount below and included Bruce's communication with Nancy.

Thanks,

Douglas

Nancy Parrotta mentioned the need for the PR and only provided the information that I show below. Nancy did not mention using OGWDW funds.

Cynthia,

FYI, we request for a PR to go to Angela Lower (contracting officer with CPOD) with a "cc" to Nancy Parrotta (COR with OGWDW). Please label it Cadmus (EP-C-15-022, WA 3-96) so that it can be allocated properly.
Thank you.

Bruce

Douglas,
What money should we use for the Dewey-Burdock Cadmus Work Assignment? I would like to check with TFS for a Purchase Request – our attached IGCE estimates the total at **$76,681.98.**
Funding needed from late October (a "soon to happen start date") through December 31, 2019 (will most likely go into FY20).
