AK Native Organization Final BB Release Phone Calls.xlsx

Rick – here are the phone calls we are making – we each have 10 calls to make. I included some cell phone numbers that I had, please keep in mind not everyone is at work at 8AM, so you might catch them having their coffee/breakfast or getting their kids off to school.

I say, let's email ones that we are unable to reach or if leaving a voice message seems questionable (i.e. sometimes the machine at the village office doesn't always work).

I will forward Judy's list serve message to all of the tribes in BB once it is out.

Thanks! Tami
