Thanks Palmer, I would prefer Tuesday at 11 ET but would try to make any time work.

Folks:

The Comm. Fishermen will be in DC next week speaking with folks at the WH, on the Hill and at EPA. They will be sharing a new report they have developed that estimates the annual value of the BB fishery at over 1.8 billion. They would like to brief the team on the report either Tuesday or Wednesday, at either 10 AM or 11 AM ET.

Please let me know ASAP if you have a preference of days or times as I would like all of you to be able to participate. Once we pick a time, we can invite the entire team.

Thanks, Palmer

Palmer -

I'd like to get a time scheduled for a briefing on a new report that Commercial Fishermen for Bristol Bay have produced that better accounts for the true economic benefits of that industry. I think you and your colleagues will find the report extremely interesting.

Our schedule is filling up fast but right now we have time Tuesday or Wednesday morning at 10 or 11 AM both days.

Best -

SB
