Administrator McCarthy Meeting with Mr. John Shively (Pebble Limited Partnership)

Ex. 5 - Deliberative

- Background
  - The AP got the letter from Wayne Nastri, consultant for mine opponents, who received it from Region 10. The Region released it after they were told it had been mailed to Shively.
  - After GM signed the letter it was sent to the EPA mailroom where it sat during the shutdown.
  - Nastri requested a copy of the letter after meeting with Dennis and Bill Dunbar who informed him that GM was going to follow-up the Alaska meeting with a letter to Shively.
  - Interestingly, a letter from Shively to GM dated 9/20 wasn't received until 10/17.
  - The AP has *not* written a story.
