Phil,

For the interviews we will have to have each interviewee sign a release form. Does EPA have a standard release form or should I construct one for this project? It need to include the taped interview, photos/video.

Also a repository for the video. Unless EPA has a repository, the National Park Service Alaska is a logical place and they have tentatively agreed, (b) (5) [redacted]

I met with Catherine Knott on Friday (b) (6) [redacted] and we edited the interview questions, revised the outline in narrative form for the villages and have a draft of a cover letter.

We also have a tentative schedule of interviews, depending, of course, on funds, contract etc which I have not yet been able to connect with Dan R. on

Nondalton; late April
New Steu, Ekwak, Koliganak, Mid-May
Levelok, K…: June
Iliamna, Newhalen, July

Alan
