Beth

as to the first comment about location of Parcel G
you reviewers assumption about it being the northerly parcel is incorrect.
Parcel G is the southerly Parcel. There were two sheets that were sent.
On the second sheet - Parcel G fills the page
the northerly parcel is labelled as ROS 5431 (which is Parcel D-2)
this new survey is ROS 6337

Before I send back to DPW for further review and changes (which we agree are needed) - can you confirm that Melanie or Keith or someone from environmental has reviewed? There are some important offsets from buildings and other features that were agreed to by all the environmental team who accompanied the survey crew in field. We think they have correctly plotted the parcel based on that site walk but want to make sure the environmental team agrees

thanks,

RE: Parcel G ROS for review

Amy,

Our cadastral did a quick look at the map, and had the following original comments...

-The map is missing bearings and distances. I am assuming parcel G is the northerly parcel on the map the lines are darker than the southerly parcel, there is nothing on the map denoting parcel G.

-Needs a tie to an existing base boundary or ROS, needs coordinates, no found or set monuments on the map.

-There are street names through the legend, north arrow and ROS title block.

-The map should have an inset showing the relationship of the parcel to the base, if most people looked at the parcel they would not have a clue where this parcel is located.

Please have your folks fix the map prior to further Navy review, we should not be doing their QC.

Thanks, Beth

Fw: Parcel G ROS for review

Hi Beth, Melanie and Keith:

Can you please review the attached Parcel G Record of Survey with the appropriate Navy personnel.

Can you send us your comments by Friday, April 22?

let me know if you have any questions.

thanks,

Subject Parcel G ROS for review

Good Afternoon,
Attached please find the draft version of the Parcel G Record of Survey.
Notes have been added to aid in your review (they will be removed upon final submittal).
Please review and let us know your comments.
Thank you very much.
