Subject: Re: MDE MSGP final edits in track changes

We have accepted the language and are moving forward to publish our TD in the next few weeks. Thank you for the follow-up.

Paul and Ed, I just wanted to close the loop on this. I am assuming that MDE accepted the language. Please let me know if that assumption is incorrect.

Thanks and Happy New Year.

Michelle Price-Fay, Chief

Clean Water Branch

Water Division (3WD40)

U.S. EPA Region III

Michelle,

I cannot officially speak on Ed's behalf, but based on the only language that was edited is the portion that you and I thoroughly discussed, I don't anticipate any further changes to your suggestions prior to publishing the TD Notice. If anything comes up we will get back with your team to work it out. I do want to thank you and your team for working on this permit and fact sheet and providing the valuable edits and improvements that you were able to provide. Thank you and if we don't talk again in the near future, have a wonderful and safe holiday season.

> Hello Ed,
>
> Attached to this email are targeted revisions for the draft versions of the permit and fact sheet for the MSGP that Paul shared with EPA on November 13, 2020. The targeted revisions, that we discussed and coordinated with Paul are attached and can be found in track changes on page 13 of the permit and page 43 of the fact sheet.
