Subject:	63-MAD-17 - Aerial application of chlopyrifos - complaints of odor and illness symptoms
Date:	Friday, August 18, 2017 12:12:38 PM
Attachments:	63-MAD-17 PENR.pdf

This case involves the aerial application of Vulcan Ca (USEPA reg. no. 66222-223) and Smoke (California reg. no. 5905-50194) by air to 1,800 acres of almonds, which resulted in approximately 55 complaints from nearby residents of strong odor and drift and illness symptoms.
