20201109 Specific questions for EPA EFED.docx

<!--[endif]-->

Thanks Jim for taking the lead on these. Do we want to add more to slide 14 and 15 or do we feel comfortable with the slides as they are? Another question, who is going to present these from our team?

Finally, please note the questions from registrant are also attached. I believe they are looking to get some answers by next week.

Subject: RE: New links to the Aldicarb Folder and the new slide deck

Hi, Team:

Please see attached power point file.
I combined slides 14 to 16 to only two slides 14 and 15.
Any suggestions?
Thanks much.

Jim

Thanks. When is the briefing? My thought is to have us revise our DW slides to make them more streamlined. I would ask that Jim take the first stab at this and then Steve can review (since Steve is working on finalizing a DRA and other reviews).

Debra told me that is for the DDs to make sure they are on board with changes (no date yet for the briefing but Debra is hoping in the next couple of weeks).
Amy, I did not see on the time-line the GW and SW distributions from DEEM so I am not sure.

Hi,

Mike's email reminded me I wanted to follow-up on this slide set as well. Who are we briefing? The registrants, Division Directors, Ed?

My initial thought was that yes we can pare down the DW slides and we don't really need to provide them with all those numbers but rather the steps we took and the general impact (this is the feedback we got from Marietta when we presented these slides awhile back). Plus I don't see a note that we provided them with the GW and SW distributions

for their DEEM runs (Marietta will want to know that) – even though I know it is reflected in the %PADs that HED is presenting.

Thanks,
Amy

General comments: Slides are to wordy, too dense, especially the timeline slides. Too many sig figs throughout. Don't provide a story of potential risk management options as we've discussed repeatedly – if we don't give them a full characterization of the real risk picture from different perspectives, it will come back and bite us very quickly if we decide to not grant the new uses.
