Subject: Conversation with Waterworth, Rebeccah

Waterworth, Rebeccah 11:33 AM:

Aldicarb meeting right now.

Hansel, Jeana 11:35 AM:
Computer goes through phases of freezing up at every stage of doing every thing; I was on my way!! haha

Waterworth, Rebeccah 11:35 AM:
Oh good :) Sorry to bother.

Hansel, Jeana 11:37 AM:
Oh you're fine! I understand & appreciate the intent :)

Hansel, Jeana 2:52 PM:
Thanks for your deep involvement with aldicarb - I have to hold my tongue at these meetings as I'm of the same mindset as Monisha where I don't see why we're doing all of this; personally I think RD has let the registrant go too far with this and ask for too much & it's frustrating because we've been working on this action for over a year but I guess it is what it is. Basically thanks for your patience :)

Waterworth, Rebeccah 2:53 PM:
Hey no problem. I can't believe that our first action is still not done.

Hansel, Jeana 2:53 PM:
Also think it's unprofessional that we've been asked for this memo with such short notice

Waterworth, Rebeccah 2:54 PM:
That is what probably bothers me the most.

Waterworth, Rebeccah 2:56 PM:
Would you like me to set up the meeting with the three of us (incl Sergio) to discuss the request?

Hansel, Jeana 2:56 PM:
Yes please, since you definitely understand the request better than I do as you worked on this with chlorpyrifos.

Waterworth, Rebeccah 2:57 PM:
Okay. Will do. I will look for time this week.
