Here is the revised letter based upon the team's understanding of the additional direction. Note that we have included the attachment/enclosure because it was already complete, but you will see in the comment bubbles the very few specific changes that would be needed if the decision is to go only with the "cover letter."

I am going to work with OGC and Region 10 ORC to get some legal review, hopefully by mid-morning tomorrow, but wanted to pass along this version in the meantime in case the attorneys' input is delayed for some reason.
