RFI 071c
Pebble Project EIS

Request for Information

Title/Subject:	**Update of Avoidance and Minimization Measures in EIS**
Requestor:	AECOM
Date Transmitted:	4/23/2020
Recipient:	Pebble Limited Partnership (PLP)
Response Requested by:	4/29/2020
Rationale:	Comments from the cooperating agencies were received on PLP's proposed mitigation measures in Table 5-2 and new mitigation and monitoring measures have been suggested that were added to Appendix M1.0 for assessment of the likelihood of adoption by the Applicant or implementation as a condition in a state, federal, or local permit. PLP previously provided information on avoidance and minimization measures in the RFI 071 series. An update is necessary for the FEIS as well as the subsequent 404(b)(1) evaluation and permit decision. Proposed avoidance and minimization measures will be considered during the factual determinations of 404(b)(1) analysis and the public interest review.
Describe the Information Requested and Level of Detail:	1. Please review the attached Table M-1 measures (Attachment 1) and provide a response on any measures that PLP is willing to adopt as part of their proposed mitigation incorporated into the project. 2. Please review the attached Table 5-2 (Attachment 2) and provide the following: • Incorporate measures from Table M1.0 that PLP is willing to adopt • Edit measures, as appropriate, in response to comments on specific measures (see comment bubbles with specific comments). • Review track-change edits and incorporate comment bubbles with a response to whether PLP agrees to or rejects the edits. • Add new measures PLP has identified that are not currently in the table.
