Myla,

Thanks so much for sharing this information. I'm awaiting a call from Mark Copeland to further discuss the flooding issues in the Metro East area. I spoke with Dennis Traiteur, Commonfields of Cahokia, Public Water District, today and we had a good discussion.

Please keep EPA in the loop on any complaints you received from residents on flooding.

Subject: Situational Awareness

Hello,

This email is in reference to our recent phone conversations regarding flooding and sewage concerns in Centreville and surrounding areas. As I shared with Mark Copeland yesterday, I had two complaints on Saturday of flooding. The individuals who contacted me gave permission to share their information.

1) Ex. 6 Personal Privacy (PP)

*Resident complained of continued flooding in the area, which has previously resulted in structural damage to his home.

2) Ex. 6 Personal Privacy (PP)

*Resident complained of flooding in area of her residence. She mentioned previously having concerns about a sewage smell in the area and in her drinking water after similar flooding events.

I indicated to both residents that I had recently been approached by Senator Duckworth's office and the EPA regarding the identified issues and that I would share their information with the representatives (& the Township Supervisor).
